Additional Consultative Services

Exploring Computers & Basic Technology Are you interested in learning more about computers, their capabilities, & simple adaptations / accommodations you can do yourself (some of which are already built in your computer system!)? Make an appointment to meet with our Technology Team for a one-to-one session to explore all of this and more!

Exploring AT to Live More Independently Are you or a friend or family member interested in exploring possibilities to live more independently? Would you like to learn more about making your home, work, or school more accessible? Make an appointment with us to learn more!

On-Site ADA Assessments Are you, a family member, friend, or business owner interested in an ADA consultation regarding accessibility? Would you like to know if your home, work, or school (either newly-built or older building) is meeting its regulations under Title II or Title III of the ADA? We can provide individualized consultation services and also full detail site surveys to determine and check ADA accessibility!

Website Accessibility Are you interested in learning more about how the internet can be more user-friendly and accessible to people with disabilities? Through the use of low cost and often free tools, navigating the internet can be a much more accessible and enjoyable environment! Contact us to get an individualized consultation for you, your organization, home, or office.

Dates for these consultations are scheduled based on request!
